

# CHINA. HANDLED.

Ground Handling Solutions for  
Inbound International Flights

# Your Trusted Ground Handling Partner in Greater China

UAS International Trip Support has been delivering customized aviation solutions to the global market for more than 25 years.

A technology-powered single point of contact for end-to-end trip support, we are trusted by Heads of State, VVIPs, Fortune Global 500 companies, and leading business jet operators worldwide.

With four continental headquarters and a presence in more than 30 countries, UAS ensures seamless service and quality for business and private aviation.

Our team is positioned across key strategic aviation hubs throughout Mainland China, providing responsive local support wherever you operate.

## Seamless Ground Support in China

UAS China delivers coordinated trip support and domestic ground handling solutions at every major airport across Greater China.

With locally based experts, bilingual VIP Supervisors, and 24/7 operational support from Beijing, we act as an extension of your flight department and ensure every mission is smooth, compliant, and predictable.

# Why Choose UAS China

## Predictable operations

Pre-flight assessments, pre-vetted docs, and risk-aware routing for reliable execution every time.

✓ Risk-aware routing

## Greater cost control

Direct domestic handling and fully transparent pricing – no hidden fees, no surprises.

✓ Transparent pricing

## Crew-centric service

Bilingual ground support, 24/7 Ops, and full CIQ and handler coordination on every trip.

✓ 24/7 Ops coverage

## Deep local expertise

20+ years average China aviation experience, with VIP Supervisors deployable nationwide.

✓ 20+ yrs experience

## Operational clarity

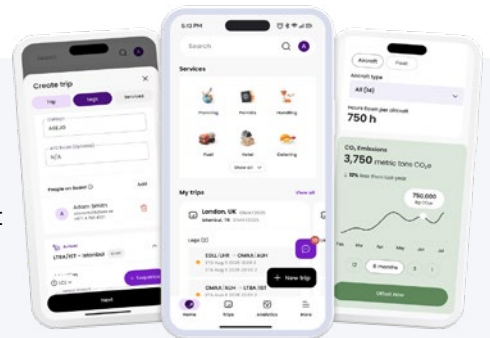

CAAC uploads in 5 working days. Permit processing within 2 days of schedule and POA confirmation

✓ fast turnaround

## GTMx By UAS

GTMx is the unified platform your flight operation has been waiting for. Built on 25+ years of aviation expertise, operational data, and intelligent automation, it replaces fragmented tools with a single, fully connected digital hub, seamlessly integrating with leading industry platforms to deliver speed, efficiency, and greater operational visibility.
